Context

English is the international language of academic study throughout the world. This course aims at providing students who study Arts and Humanities with the necessary strategies and skills to search for, read and analyse academic texts in English that enable them to complete their university studies and progress professionally in their future lives. On the one hand, the course will be designed to help students develop essential research skills, such as being able to autonomously search for general and specific information about a topic, conduct online research, successfully navigate library resources and understand and use academic referencing systems. On the other hand, the course will explore critical reading skills needed to succeed in understanding research and becoming part of the academic community. A wide variety of texts from different disciplines will be analysed including essays, journal articles, reviews, book chapters and interviews. The course will largely consist of practical sessions which will be supported by seminars on theoretical aspects of academic English. Searching and reading skills will be honed through different practical exercises including website searches, text analyses, the study of specific vocabulary groups, analyses of specific structural characteristics and stylistic features of academic written texts. The competences and skills acquired in this course will be fundamental to the study of specific Arts and Humanities courses.

Essential

This subject will be taught in English and students will have to read academic texts in this language. Therefore, it is **essential for students to have an intermediate level of English (B1)** in, at least, listening and reading comprehension. This is the level of English students should have reached at the end of their highschool studies and the one required to pass university access exams. Students who do not have this level of English will find a list of self-study resources in the bibliographical section of this guide and it is their responsibility to reach this level prior to the beginning of the course. Furthermore, the "English Lab" room (Jovellanos building's library) is at the disposal of UIB students for them to use the varied resources for the study of English that the lab contains with the help of 3rd/4th-year English Studies students. For further information on the "English Lab" check this link http://diari.uib.cat/arxiu/Coneixeu-lEnglish-Lab.cid376924, or the Lab's social media site https://www.facebook.com/englishlabUIB/info?tab=page_info

Skills

Specific

- * C20. Ability to understand, interpret and analyse academic documents related to the students' field of study
- * C22. Ability to find and manage information related to the discipline in online databases, and to use software applications related to the field

Generic

- * C1. Ability to autonomously analyse information
- * C2. Ability to find and deal with information so as to enhance the students' learning process throughout their lives
- * C3. Ability to critically interpret, analyse, summarise and evaluate information
- * C4. Ability to relate and integrate information from different sources and disciplines and apply them for practical purposes

Basic

* You may consult the basic competencies students will have to achieve by the end of the degree at the following address: http://www.uib.eu/study/grau/Basic-Competences-In-Bachelors-Degree-Studies/

Teaching methodology

Both the **practical assessment TWO** and the **final test must be passed with a 5** for the student to get a pass in the subject. Consequently, should one or the two parts not be successfully passed by the student, the rest of their grades will not be taken into account, even if the average score is a PASS (5 or higher). In this case, the student will have a 4.5 in their record (UIB Digital). In the case that the average score is not a pass (5 or higher) despite having passed with a 5 both parts (practical assessment two and final test), the student will be given the choice of resitting either or both of the exams.

IMPORTANT NOTE: Mobile phones and other electronic devices are NOT allowed in the classroom. Laptop computers are acceptable ONLY if used for purposes related to classroom activity. No electronic device whatsoever (including computers) is allowed in the classroom during exams/practical sessions, unless

Specific risks and protective measures

The learning activities of this course do not entail specific health or safety risks for the students and therefore no special protective measures are needed.

Student learning assessment

PATHWAY A

Attendance is compulsory to two sessions, and to the final official exam:

- 1. Assessment ONE: 20% of final mark. It CANNOT be resat.
- 2. Assessment TWO: 30% of final mark. It CAN be resat.
- 3. **Final exam:** 50% of final mark.

Both assessment TWO and the final exam must be passed with a 5. Should one or the two parts be failed, the rest of the grades will not be taken into account, even if the average score is a PASS. In this case, the student will have a 4.5 in their record.

If a student fails to hand in an assignment or to show up on the day and at the time established by the lecturer, the grade for that assessment/test will be a 0, if this assessment represents more than 30% of the total assessment in the subject. Only if the assessment accounts for 30% or less of the total assessment, will the grade be NP.

The dates and times of the different assessments/tests will not be altered UNDER ANY CIRCUMSTANCES except those contemplated by the UIB Reglament Acadèmic. Students will not be allowed into the classroom when the practical session or test has already started.

REMEMBER: Article 33 in the *Reglament Acadèmic* will be applied in cases of cheating, plagiarism, cyberplagiarism or any other fraudulent practice in the process of assessment:

"1. Amb independència del procediment disciplinari que es pugui seguir contra l'estudiant infractor, la realització demostradorament fraudulenta d'algun dels elements d'avaluació inclosos en guies docents de les

assignatures comportarà, a criteri del professor, una menysvaloració en la seva qualificació que pot suposar la qualificació de «suspens 0» a l'avaluació anual de l'assignatura.

2. En particular, es considera un frau:

- a) En els exàmens o proves escrites, l'ús de qualsevol mitjà encaminat a facilitar les respostes.
- b) En els treballs i pràctiques individuals o de grup, la inclusió de fragments d'obres alienes presentats de tal manera que es facin passar com a propis (plagi)"

PATHWAY B

Students officially recognised by the UIB as part-time students will follow Pathway B, which has the same assessment criteria established in Pathway A. The only difference between part-time and full-time students is that the former are not expected to regularly attend or actively participate in sessions.

Frau en elements d'avaluació

In accordance with article 33 of Regulation of academic studies, "regardless of the disciplinary procedure that may be followed against the offending student, the demonstrably fraudulent performance of any of the evaluation elements included in the teaching guides of the subjects will lead, at the discretion of the teacher, a undervaluation in the qualification that may involve the qualification of "suspense 0" in the annual evaluation of the subject".
